

TECHNICAL SHEET

Performance, technology, high level design: R2R "from Race to Road" is the helmet to live the long trip and the city. The outstanding aerodynamics, a huge field of vision, top air intakes, the Max Pinlock 70, the extended protective visor and the sun visor make it the perfect helmet to face the roads in complete safety and protected by Kyt quality.

SHELL

ADT-Advance Thermoplastic shell made of an injection moulded, thermoplastic resin mix with high impact resistance. R2R is made in 2 size shell [M and L] to ensure a perfect fit of the helmet.

VISOR

The visor is in Polycarbonate, scratch-resistant and with UV380 ray filters. The visor has a PAT PEND central lock for a better stability and it's easily removable thanks to a practical mechanism, without the use of any tool. The integrated sun visor is easily operated thanks to a side control integrated into the helmet bottom edge.

PINLOCK®

R2R is equipped with PINLOCK® MAX VISION 70.

VENTILATION

The two front air intakes on the external shell allow an optimal ventilation of air flow intake into the helmet. The spoiler configuration allows best extraction ensuring a perfect flow of internal air to the outside.

INNERS

The interiors and comfort pads are removable, washable and replaceable, and have the following features:

- Easy outflow of body moisture
- Maintenance of the correct temperature
- Hydrocool textile, light, soft and breathable
- Cheek pads ready for earphone
- Predisposition for glasses
- Predisposition for emergency easy removal

RETENTION SYSTEM

The retention system has a micrometric buckle made of metal and acetal resin.

TECHNICAL SHEET
